RECRUITING PEOPLE?

LET US TAKE THE LOAD FOR YOU

The right people for the job can then get on with the job in hand; it's that simple.

At P&G we are proud of our service, making sure that the new systems we install are backed-up by regular maintenance, as well as phone, dial-in & emergency support. Cover can be provided by weekly, monthly or quarterly visits. We'll suggest hardware and software upgrades where needed, and we can provide the latest technology if required. We have experience in Novell, Microsoft Windows NT (versions 3.51 to 4), and Microsoft Windows 2000 Server. Our expertise in desktop computer software ranges from Microsoft Windows 9x to Microsoft Windows NT 4 Workstation, as well as Microsoft Windows 2000 Professional.

Your computers can be set-up by P&G with E-Mail and Internet connections to suit your business needs. Now that more and more business is carried-out over the Internet, there is now a greater potential for security attacks via the Web. ADSL provides Internet access that's 'always-on' and is an 'open gateway' from the Internet world. With no Firewall, no NAT and a fixed IP, everyone on the Internet has access to your computers. Everyone with ADSL should have a Firewall to give some level of security for the protection of the system. The firewall can be software, hardware or both. Please call us to arrange a demonstration.
