## RECRUITING PEOPLE?

### LET US TAKE THE LOAD FOR YOU

Recruiting people is not easy, and can be very time-consuming and costly if not done correctly. Explain to us what you need, and we will find the right people, interview them, psychometrically profile them, check their background and then present you with a selection of well-qualified candidates. The right people for the job can then get on with the job in hand; it's that simple.

For more information about what we can do to help you, contact Nigel Trott on:

**ADVERTISE HERE!**

Promote your business to members and the wider readership. This and the club advert, as well as the events listing on the front page, are all taking-up space that you could be using.

1 unit is 84x10.5mm - £20 for 12 issues to members. There's a 6mm gap between adverts, so two units measure 84x27mm and cost £40, and the most popular size, 4 units (84x60mm), is just £80 for the year. There are sizes available in a range of shapes and advertising periods. We also have rates for non-members for those interested in promoting their products and services to members.

Book your space now on: sbcnews@surreybiz.net 01420 594644

## BUSINESS PROFILE

### Support Team

There are a number of key services that, if ignored or poorly resourced, can cause major problems for any business. Accountancy, Legal and Office Rental come high on the list, but they have now been joined by Computing. Despite this dependence on technology, few companies offer IT Services targeted at the smaller business.

Support Team was formed in 2004 to fulfil the need for a reliable IT support company in this sector. Its founders set out to define products and support services specifically for 5-50 employee companies. These solutions are designed to be flexible, scalable and cost-effective whilst retaining the customer service, features and reliability seen and expected by corporations.

Our Small Business Solutions service is based on Microsoft Windows Small Business Server, these offer a complete, cost-effective computer package. This is a modular solution where email, calendars, central file sharing, printer sharing and virus protection can all be included. Options are available for even higher performing systems where additional software such as contact management, CRM and accounts packages can be installed. All systems come with appropriately sized storage and backup solutions along with three years manufacturers'

warranty. All of these systems are scalable and can grow with your business. As an added benefit, with suitable Internet connections, it is possible to work remotely. This could allow you to work from home, in a hotel, at a customer's site or even on a mobile telephone, making your life more flexible.

Support Packs are the cost-effective solution to buying IT support. They give you piece of mind that should you have a computer related problem you can call, or email, for help knowing that you will receive expert support in a timely manner. This is available within a cost-effective contract. To greatly reduce the risk of system failure a range of pro-active support services can be added to your support pack. By monitoring and regularly servicing your systems Support Team can also help you plan for upgrades. Support Packs are scalable to suit every business, payable monthly, and so allow a company to better control its IT support costs. This, in turn, can reduce the total cost of ownership (TCO) of your computer systems.

Support Team's skilled staff are also happy to discuss any IT related project you may have, not just the examples above. Projects can be arranged to a fixed price, or charged by time. If you would like more information about our services, please contact us on:
